Project Details

PROJECT : 1

- Hongkong Heji (for RTCC product)

  Developed Small Provisioning Feature called MVR(Mobile Voice Recording) on existing RTCC system.Mostly in this project invalved for Service call flow checking on CAP and INAP protocol to check impact on existing feature over new feature.

  Period : july 2016- till now   Team Size: 15

  Role : Developer

PROJECT : 2

- Maxico telephonica (VPN Product)

  Its Change Requirement Project, where we Replace INAP CS1+ to RO+ (diameter)Protocol to Communicate NGIN with OCS(online changing system).Got Basic knowledge on Diameter protocol and its Messages like, CCR_I,CCA_I,CCR_T,CCA_T etc.Site support for installation and ATP Testing

Period : june2016-Till now   Team Size: 10

Role : Tester

PROJECT : 3

- STC-Saudi Telecom company (Clock service & Number Change Notification (NCN) Service

  Developed Some SOAP feature like Access Code, Day time configuration, SubService Number etc.

  Period : Mar 2016 - May 2016   Team Size: 15

  Role : Developer

PROJECT : 4

- Belgacom Belgium (VPN product)

  Performed core Java Development for particular Provisioning features like Add Member,Destination Number, ADR (Create,delete,Modify,List Operation)etc on SOAP based.Excuted Performance test for Complete SOAP feature to find out Defined Response time on Particular CAP.

  Period : Jan 2016 - Till Now   Team Size: 30

  Role : Developer

PROJECT : 5

- Pakistan telecom company limited {NTS}

  Successfully Tested Data Migration script from Old Intelligent network system to New Intelligent Network system(ENIP Platform) . Successfully Executed and tested all service calls and verify all site data on New Intelligent N/w system and during Migration find out Major defects. Besides that developed some service related features Core java. Made all configurations of Service switching point , service controlling point, SMP, SMAP, components of ENIP Platform. Supported site during Installation and Execution of calls on site Test bed and Live system.

  Period : Nov 2015 - Dec 2015   Team Size: 4

  Role : Tester

PROJECT : 6

- Chile Nextel (VPN Product)

  Its Change Requirement Project,Performed core Java Development for some small changes as per requirements.

  Period : Sept 2015-OCT 2015   Team Size: 5

  Role : Developer

PROJECT : 7

- Brazil Claro Telefonica (VPN product)

  Performed Java Development for particular Provisioning features like Enterprise, Member,Holiday, Access Code(Create,delete,Modify,List Operation) etc on SOAP based. During development. Also Analysis CDR(Charge detail record),log and Installed and Configured Intelligent Network Components. Supported site during Installation and Execution of calls on site Testbed and Live system.

  Period : March 2015-OCT 2015   Team Size: 20

  Role : Developer

PROJECT : 8

- Peru TLF - Top Up rechage

  it small feature to recharge Fixed phone

  Period : Dec2016- Jan2017   Team Size: 10

Role : Tested and Automated complete TopUp call flow and integrated in CI machine

PROJECT : 9
- Uruguay PPS service
  It handover project for further support and maintenance.
  Period : Feb2017-Till Now   Team Size: 5
  Role : Tested and Automated complete Number analysis part and Prepared ATP document.

Field of Interests
- Information technology, Telecommunications, JAVA Development, Big Data, Hadoop, Data science

Skills
- Java, Unix, Python,Oracle Database, Automation Testing, SOAP Testing using SOAP UI

Strength & Hobbies
- Dedication, Always ready for New things, hard work, excellent & quick Learning skills
- Hunger and fully dedicated to learn new things

Declaration
I hear by declare that the information finished above is true to the best of my knowledge.
